PART 2 THE CODE

Preface.....	52
--------------	----

Principles

1. Courtesy.....	52
2. Counting points played in good faith.....	53

The Warm-Up

3. Warm-up is not practice.....	53
4. Warm-up serves.....	53

Making Calls

5. Player makes calls on own side of the net.....	53
6. Opponent gets benefit of doubt.....	53
7. Ball touching any part of line is good.....	53
8. Ball that cannot be called out is good.....	53
9. Calls when looking across a line or when far away.....	53
10. Treat all points the same regardless of their importance.....	54
11. Requesting opponent's help.....	54
12. Out calls corrected.....	54
13. Player calls own shots out.....	54
14. Partners' disagreement on calls.....	54
15. Audible or visible calls.....	54
16. Opponent's calls questioned.....	54
17. Spectators never to make calls.....	54
18. Prompt calls eliminate two chance option.....	54
19. Lets called when balls roll on the court.....	55
20. Touches, hitting ball before it crosses net, invasion of opponent's court, double hits, and double bounces.....	55
21. Balls hit through the net or into the ground.....	55
22. Calling balls on clay courts.....	55

Serving

23. Server's request for third ball.....	55
24. Foot faults.....	55
25. Service calls in doubles.....	56
26. Service calls by serving team.....	56
27. Service let calls.....	56
28. Obvious faults.....	56
29. Receiver readiness.....	56
30. Delays during service.....	56

Scoring	
31. Server announces score	56
32. Disputes	56
Hindrance Issues	
33. Talking during a point	57
34. Feinting with the body	57
35. Lets due to hindrance	57
36. Grunting	57
37. Injury caused by a player	57
When to Contact an Official	
38. Withdrawing from a match or tournament	57
39. Stalling	58
40. Requesting an official	58
Ball Issues	
41. Retrieving stray balls	58
42. Catching a ball	58
43. New balls for a third set	58
Miscellaneous	
44. Clothing and equipment malfunction	58
45. Placement of towels	58
PART 3 USTA REGULATIONS (INCLUDING FAC COMMENTS)	
I. Tournament Regulations	59
A. Applicability of Regulations	59
B. Application for Sanction and Appointment of Tournament Committee	59

Reference to the International Tennis Federation or ITF shall hereinafter mean ITF Limited.

FOREWORD

The International Tennis Federation (ITF) is the governing body of the game of tennis and its duties and responsibilities include determination of the Rules of Tennis.

To assist the ITF in carrying out this responsibility, the ITF has appointed a Rules of Tennis Committee which continually monitors the game and its rules, and makes recommendations for changes either on a permanent basis or for a limited trial period to the Board of Directors of the ITF who in turn make recommendations to the Annual General Meeting of the ITF which is the ultimate authority for making any changes to the Rules of Tennis.

As in previous years, the number of substantive changes is limited, but the format and presentation of the rules has been revised into a more modern language and easier to follow sequence.

This has resulted in a reduction in the number of rules, and for reference purposes in this new edition the old rule number is shown in brackets.

Note: Except where otherwise stated, every reference in these Rules of Tennis to the masculine includes the feminine gender.

1. THE COURT (OLD 1 & 34)

The court shall be a rectangle, 78 feet (23.77 m) long and, for singles matches, 27 feet (8.23 m) wide. For doubles matches, the court shall be 36 feet (10.97 m) wide.

The court shall be divided across the middle by a net suspended by a cord or metal cable which shall pass over or be attached to two net posts at a height of 3 feet 6 inches (1.07 m). The net shall be fully extended so that it completely fills the space between the two net posts and it must be of sufficiently small mesh to ensure that a ball cannot pass through it. The height of the net shall be 3 feet (0.914 m) at the centre, where it shall be held down tightly by a strap. A band shall cover the cord or metal cable and the top of the net. The strap and band shall be completely white.

- The maximum diameter of the cord or metal cable shall be ¼ inch (0.8 cm).
- The maximum width of the strap shall be 2 inches (5 cm).
- The band shall be between 2 inches (5 cm) and 2½ inches (6.35 cm) deep on each side.

For doubles matches, the centres of the net posts shall be 3 feet (0.914 m) outside the Doubles Court on each side.

For singles matches, if a singles net is used, the centres of the net posts shall be 3 feet (0.914 m) outside the Singles Court on each side. If a doubles net is used, then the net shall be supported, at a height of 3 feet 6 inches

(1.07 m), by two singles sticks, the centres of which shall be 3 feet (0.914 m) outside the Singles Court on each side.

- The net posts shall not be more than 6 inches (15 cm) square or 6 inches (15 cm) in diameter.
- The singles sticks shall not be more than 3 inches (7.5 cm) square or 3 inches (7.5 cm) in diameter.
- The net posts and singles sticks shall not be more than 1 inch (2.5 cm) above the top of the net cord.

The lines at the ends of the court are called baselines and the lines at the sides of the court are called sidelines.

Two lines shall be drawn between the singles sidelines, 21 feet (6.40 m) from each side of the net, parallel with the net. These lines are called the servicelines. On each side of the net, the area between the serviceline and the net shall be divided into two equal parts, the service courts, by the centre serviceline. The centre serviceline shall be drawn parallel with the singles sidelines and half way between them.

Each baseline shall be divided in half by a centre mark, 4 inches (10 cm) in length, which shall be drawn inside the court and parallel with the singles sidelines.

- The centre service line and centre mark shall be 2 inches (5 cm) wide.
- The other lines of the court shall be between 1 inch (2.5 cm) and 2 inches (5 cm) wide, except that the base lines may be up to 4 inches (10 cm) wide.

All court measurements shall be made to the outside of the lines and all lines of the court shall be of the same colour clearly contrasting with the colour of the surface.

No advertising is allowed on the court, net, strap, band, net posts or singles sticks except as provided in **Appendix III**.

USTA Comment 1.1: *How do you tighten the net to the proper tension?* First, loosen the center strap. Next, tighten the net cord until the center of the net is approximately 40 inches above the ground. Finally, tighten the center strap until the center of the net is 36 inches above the ground. These measurements should always be made before the day's first match and when possible before each match.

USTA Comment 1.2: *What happens if a singles stick falls to the court during a point?* The point stops immediately and is replayed.

2. PERMANENT FIXTURES (OLD 2)

The permanent fixtures of the court include the backstops and sidestops, the spectators, the stands and seats for spectators, all other fixtures around and above the court, the chair umpire, line umpires, net umpire and ball persons when in their recognised positions.

In a singles match played with a doubles net and singles sticks, the net posts and the part of the net outside the singles sticks are permanent fixtures and are not considered as net posts or part of the net.

3. THE BALL (OLD 3, 13 & 32)

Balls, which are approved for play under the Rules of Tennis, must comply with the specifications in **Appendix I**.

The International Tennis Federation shall rule on the question of whether any ball or prototype complies with Appendix I or is otherwise approved, or not approved, for play. Such ruling may be taken on its own initiative, or upon application by any party with a bona fide interest therein, including any player, equipment manufacturer or National Association or members thereof. Such rulings and applications shall be made in accordance with the applicable Review and Hearing Procedures of the International Tennis Federation.

The event organisers must announce in advance of the event:

- a. The number of balls for play (2, 3, 4 or 6).
- b. The ball change policy, if any.
Ball changes, if any, can be made either:
 - i. After an agreed odd number of games, in which case, the first ball change in the match shall take place two games earlier than for the rest of the match, to make allowance for the warm-up. A tie-break game counts as one game for the ball change. A ball change shall not take place at the beginning of a tie-break game. In this case, the ball change shall be delayed until the beginning of the second game of the next set; or
 - ii. At the beginning of a set
If a ball gets broken during play, the point shall be replayed.

Case 1: If a ball is soft at the end of a point, should the point be replayed?

Decision: If the ball is soft, not broken, the point shall not be replayed.

Note: Any ball to be used in a tournament which is played under the Rules of Tennis, must be named on the official ITF list of approved balls issued by the International Tennis Federation.

USTA Comment 3.1: *What is the difference between a broken ball and a soft ball?* A broken ball has no compression; a soft ball has some compression. Both broken and soft balls should be removed from play.

USTA Comment 3.2: *May a player cause a ball to become wet by using the ball to wipe perspiration from the player's body?* No. A player may not take any action that materially changes the condition of the ball; therefore, a player may not use a ball to wipe off perspiration.

USTA Comment 3.3: A current list of USTA approved balls is available on the USTA web site, www.usta.com.

4. THE RACKET (OLD 4)

Rackets, which are approved for play under the Rules of Tennis, must comply with the specifications in **Appendix II**.

The International Tennis Federation shall rule on the question of whether any racket or prototype complies with **Appendix II** or is otherwise approved, or not approved, for play. Such ruling may be undertaken on its own initiative, or upon application by any party with a bona fide interest therein, including any player, equipment manufacturer or National Association or members thereof. Such rulings and applications shall be made in accordance with the applicable Review and Hearing Procedures of the International Tennis Federation.

Case 1: Is more than one set of strings allowed on the hitting surface of racket?

Decision: No. The rule mentions a pattern (not patterns) of crossed strings. (See **Appendix II**)

Case 2: Is the stringing pattern of a racket considered to be generally uniform and flat if the strings are on more than one plane?

Decision: No.

Case 3: Can vibration damping devices be placed on the strings of a racket? If so, where can they be placed?

Decision: Yes, but these devices may only be placed outside the pattern of the crossed strings.

Case 4: During a point, a player accidentally breaks the strings. Can the player continue to play another point with this racket?

Decision: Yes, except where specifically prohibited by event organisers.

Case 5: Is a player allowed to use more than one racket at any time during play?

Decision: No.

Case 6: Can a battery that affects playing characteristics be incorporated into a racket?

Decision: No. A battery is prohibited because it is an energy source, as are solar cells and other similar devices.

USTA Comment 4.1: *What happens if it is discovered after play has begun that a player has been using an illegal racket or an illegally strung racket?* All points played stand. The player must find another racket before continuing play. A player is subject to code violations for delay under the Point Penalty System. If the discovery occurs after the match is over, the match still counts.

USTA Comment 4.2: *May a player who breaks a racket or a string in a racket leave the court to get a replacement?* A player who leaves the Court to get a replacement is subject to Code Violations for delays under the Point Penalty System. **Rule 29b** permits a player "reasonable extra time" to leave the court only in those cases where "clothing, footwear or necessary equipment (excluding racket) is broken or needs to be replaced."

5. SCORE IN A GAME (OLD 26 & 27)

a. Standard game

A standard game is scored as follows with the server's score being called first:

No point	-	"Love"
First point	-	"15"
Second point	-	"30"
Third point	-	"40"
Fourth point	-	"Game"

except that if both players/teams have won three points, the score is "Deuce". After "Deuce", the score is "Advantage" for the player/team who wins the next point. If that same player/team also wins the next point, that player/team wins the "Game"; if the opposing player/team wins the next point, the score is again "Deuce". A player/team needs to win two consecutive points immediately after "Deuce" to win the "Game".

b. Tie-break game

During a tie-break game, points are scored "Zero", "1", "2", "3" etc. The first player/team to win seven points wins the "Game" and "Set", provided there is a margin of two points over the opponent(s). If necessary, the tie-break game shall continue until this margin is achieved.

The player whose turn it is to serve shall serve the first point of the tie-break game. The following two points shall be served by the opponent(s) (in doubles, the player of the opposing team due to serve next). After this, each player/team shall serve alternately for two consecutive points until the end of the tie-break game (in doubles, the rotation of service within each team shall continue in the same order as during that set).

The player/team whose turn it was to serve first in the tie-break game shall be the receiver in the first game of the following set. Additional approved alternative scoring methods can be found in **Appendix IV**.

USTA Comment 5.1: The Tiebreak game is also known as the Set Tiebreak. The Set Tiebreak should not be confused with the Deciding Match Tiebreak (7-point or 10-point), which under certain circumstances

may be played in lieu of the deciding final set. The Deciding Match Tiebreak is described in **Appendix IV**.

USTA Comment 5.2: *Is the server required to call the score at the beginning of each game and the point scores as the games go on in matches without officials?* Yes. This is required by **The Code § 31**.

USTA Comment 5.3: *The server states that the score is 40-15; the receiver states that the score is 30-30. The players agree on who won every point except for the second point. What should they do? They should replay the second point from the advantage court. If the server wins the point, the score becomes 40-15; if the receiver wins the point, the score becomes 30-30. The next point is played from the deuce court.*

USTA Comment 5.4: *What happens in the same situation as USTA Comment 5.3 except that the disputed point is the third point?* Everything is done the same except that the disputed point is played from the deuce court.

USTA Comment 5.5: *The players agree that they have played six points in the game but disagree over the score because they do not agree on who won the second point. The receiver acknowledges that the server called the score after each point and that the receiver did not express disagreement with the score until now. What should happen?* The score as announced by the server should prevail because the receiver did not object. Note, however, if the receiver denied hearing the score, then an official would have to be called to go through the normal 3-step process to settle the dispute.

6. SCORE IN A SET (OLD 27)

There are different methods of scoring in a set. The two main methods are the “Advantage Set” and the “Tie-break Set”. Either method may be used provided that the one to be used is announced in advance of the event. If the “Tie-break Set” method is to be used, it must also be announced whether the final set will be played as a “Tie-break Set” or an “Advantage Set”.

USTA Comment: *USTA Regulation I.V.3. requires that a Set Tiebreak be played in all sets except when a Deciding Match Tiebreak is played in lieu of the deciding final set.*

a. “Advantage Set”

The first player/team to win six games wins that “Set”, provided there is a margin of two games over the opponent(s). If necessary, the set shall continue until this margin is achieved.

b. “Tie-break Set”

The first player/team to win six games wins that “Set”, provided there is a margin of two games over the opponent(s). If the score reaches six games all, a tie-break game shall be played.

Additional approved alternative scoring methods can be found in **Appendix IV**.

7. SCORE IN A MATCH (OLD 28)

A match can be played to the best of 3 sets (a player/team needs to win 2 sets to win the match) or to the best of 5 sets (a player/team needs to win 3 sets to win the match).

Additional approved alternative scoring methods can be found in **Appendix IV**.

8. SERVER & RECEIVER (OLD 5)

The players/teams shall stand on opposite sides of the net. The server is the player who puts the ball into play for the first point. The receiver is the player who is ready to return the ball served by the server.

Case 1: Is the receiver allowed to stand outside the lines of the court?

Decision: Yes. The receiver may take any position inside or outside the lines on the receiver’s side of the net.

9. CHOICE OF ENDS & SERVICE (OLD 6)

The choice of ends and the choice to be server or receiver in the first game shall be decided by toss before the warm-up starts. The player/team who wins the toss may choose:

- a. To be server or receiver in the first game of the match, in which case the opponent(s) shall choose the end of the court for the first game of the match; or
- b. The end of the court for the first game of the match, in which case the opponent(s) shall choose to be server or receiver for the first game of the match; or
- c. To require the opponent(s) to make one of the above choices

Case 1: Do both players/teams have the right to new choices if the warm-up is stopped and the players leave the court?

Decision: Yes. The result of the original toss stands, but new choices may be made by both players/teams.

USTA Comment 9.1: *When should the toss be made?* The toss should be made before the warm-up so that the players can warm-up on the same side from which they play their first game.

10. CHANGE OF ENDS (OLD 16 & 27)

The players shall change ends at the end of the first, third and every subsequent odd game of each set. The players shall also change ends at the end of each set unless the total number of games in that set is even, in which case the players change ends at the end of the first game of the next set.

During a tie-break game, players shall change ends after every six points.

11. BALL IN PLAY (OLD 17)

Unless a fault or a let is called, the ball is in play from the moment the server hits the ball, and remains in play until the point is decided.

USTA Comment 11.1: *Is a point decided when a good shot has clearly passed a player, or when an apparently bad shot passes over the baseline or sideline?* No. A ball is in play until it bounces twice or lands outside the court, hits a permanent fixture, or hits a player. A ball that becomes imbedded in the net is out of play.

USTA Comment 11.2: *Must an out call on a player's shot to the opponent's court be made before the opponent's return has either gone out of play or been hit by the first player?* Yes.

12. BALL TOUCHES A LINE (OLD 22)

If a ball touches a line, it is regarded as touching the court bounded by that line.

USTA Comment 12.1: *If a player cannot call a ball out with certainty, should the player regard the ball as good?* Yes. **The Code § 6 & 8** require a player to give the opponent the benefit of any doubt.

13. BALL TOUCHES A PERMANENT FIXTURE (OLD 23)

If the ball in play touches a permanent fixture after it has hit the correct court, the player who hit the ball wins the point. If the ball in play touches a permanent fixture before it hits the ground, the player who hit the ball loses the point.

USTA Comment 13.1: *What happens if a ball hits the top of the net outside the singles stick and then lands in the court?* The player who hit the ball loses the point because the ball hit a permanent fixture. In singles

the area outside the singles stick is a permanent fixture.

USTA Comment 13.2: *Who wins the point if a player hits a ball that hits an object attached to the net or post (such as the scoring device) and then lands in the proper court?* The player who hit the ball loses the point because it hit a permanent fixture before landing in the court.

USTA Comment 13.3: *During a rally in a singles match played on a doubles court without singles sticks, a player hits a shot that was going out until it hits the doubles post and careens into the proper court. Who wins the point?* Every effort should be made to provide singles sticks for a match that is played on a doubles court so that this situation does not occur. If it does occur, the player who hit the shot wins the point because the entire doubles net and doubles posts are respectively the net and the net posts for this match.

14. ORDER OF SERVICE (OLD 15 & 35)

At the end of each standard game, the receiver shall become the server and the server shall become the receiver for the next game.

In doubles, the team due to serve in the first game of each set shall decide which player shall serve for that game. Similarly, before the second game starts, their opponents shall decide which player shall serve for that game. The partner of the player who served in the first game shall serve in the third game and the partner of the player who served in the second game shall serve in the fourth game. This rotation shall continue until the end of the set.

USTA Comment 14.1: *May a doubles team switch its serving order at the beginning of any set or Deciding Match Tiebreak?* Yes. There is no requirement that any doubles team retain the same serving order for a new set or Deciding Match Tiebreak.

15. ORDER OF RECEIVING IN DOUBLES (OLD 35, 36 & 40)

The team which is due to receive in the first game of a set shall decide which player shall receive the first point in the game. Similarly, before the second game starts, their opponents shall decide which player shall receive the first point of that game. The player who was the receiver's partner for the first point of the game shall receive the second point and this rotation shall continue until the end of the game and the set.

After the receiver has returned the ball, either player in a team can hit the ball.

Case 1: Is one member of a doubles team allowed to play alone against the opponents?

Decision: No.

USTA Comment 15.1: *Do the partners have to alternate making shots during a rally?* No. In the course of making a shot, only one partner may hit the ball. If both of them hit the ball, either simultaneously or consecutively, it is an illegal return. Mere clashing of rackets does not make a return illegal unless it is clear that more than one racket touched the ball.

USTA Comment 15.2: *May a doubles team switch its receiving order at the beginning of any set or Deciding Match Tiebreak?* Yes. There is no requirement that any doubles team retain the same receiving order for a new set or Deciding Match Tiebreak.

16. THE SERVICE (OLD 7)

Immediately before starting the service motion, the server shall stand at rest with both feet behind (i.e. further from the net than) the baseline and within the imaginary extensions of the centre mark and the sideline.

The server shall then release the ball by hand in any direction and hit the ball with the racket before the ball hits the ground. The service motion is completed at the moment that the player's racket hits or misses the ball. A player who is able to use only one arm may use the racket for the release of the ball.

USTA Comment 16.1: *May a player serve underhanded?* Yes.

There is no restriction in the rules on the kind of service motion that a server may use.

17. SERVING (OLD 9 & 27)

When serving in a standard game, the server shall stand behind alternate halves of the court, starting from the right half of the court in every game.

In a tie-break game, the serve shall be served from behind alternate halves of the court, with the first served from the right half of the court.

The serve shall pass over the net and hit the service court diagonally opposite, before the receiver returns it.

18. FOOT FAULT (OLD 7 & 8)

During the service motion, the server shall not:

- a. Change position by walking or running, although slight movements of the feet are permitted,

- b. Touch the baseline or the court with either foot,
- c. Touch the area outside the imaginary extension of the sideline with either foot,
- d. Touch the imaginary extension of the centre mark with either foot.

If the server breaks this rule it is a "Foot Fault".

Case 1: In a singles match, is the server allowed to serve standing behind the part of the base line between the singles sideline and the doubles sideline?

Decision: No.

Case 2: Is the server allowed to have one or both feet off the ground?

Decision: Yes.

USTA Comment 18.1: *Where may the server stand?* In singles, the server may stand anywhere behind the baseline between the imaginary extensions of the inside edge of the center mark and the outside edge of the singles sideline. In doubles, the server may stand anywhere behind the baseline between the imaginary extensions of the inside edge of the center mark and the outside edge of the doubles sideline.

USTA Comment 18.2: *What does the rule mean when it says that the server may "not change position by walking or running"?* One key to understanding this rule is to realize that the server's feet must be at rest immediately before beginning to serve. The delivery of the service then begins with any arm or racket motion and ends when the racket contacts the ball (or misses the ball in attempt to strike it).

To define walking or running with precision is difficult. This rule is intended to prevent the server from taking advantage of the receiver by serving while "on the move" and requiring the receiver to guess the position from which the serve will be launched, and the rule should be enforced with that intent in mind.

- A server who takes more than one step with either foot after the "feet at rest" position described above is at risk for being called for a foot fault. The serve becomes a foot fault when, in the judgment of an experienced official, the server has materially changed position before or during any racket or arm motion.
- A server whose footwork changes significantly from one serve to the next is at risk for being called for a foot fault.
- Serves that look like the running volleyball serve violate the rule. Serves in which the server runs or walks from a point well behind the baseline to the baseline are also illegal, as are serves in which the server walks or runs along the baseline before choosing a spot from which to deliver the serve.

USTA Comment 18.3: *When does a foot fault occur?* A player commits a foot fault if after the player's feet are at rest but before the player strikes the ball, either foot touches:

- the court, including the baseline;
- any part of the imaginary extension of the center mark; or
- beyond the imaginary extension of the outside of the singles sideline in singles or the doubles sideline in doubles.

USTA Comment 18.4: *Is it a foot fault if the server's foot touches the baseline and then the server catches the tossed ball instead of attempting to strike it?* This is not a foot fault as long as the server makes no attempt to strike the ball.

USTA Comment 18.5: *May a player ask an official how he foot faulted?* Yes. The official should then give a brief answer.

USTA Comment 18.6: *When may the receiver or the receiver's partner call foot faults?* In a non-officiated match, the receiver or the receiver's partner may call foot faults after all efforts (warning the server and attempting to locate an official) have failed and the foot faulting is so flagrant as to be clearly perceptible from the receiver's side.

19. SERVICE FAULT (OLD 10 & 39)

The service is a fault if:

- a. The server breaks **rules 16, 17, or 18**; or,
- b. The server misses the ball when trying to hit it; or,
- c. The ball served touches a permanent fixture, singles stick or net post before it hits the ground; or,
- d. The ball served touches the server or server's partner, or anything the server or server's partner is wearing or carrying.

Case 1: After tossing a ball to serve, the server decides not to hit it and catches it instead. Is this a fault?

Decision: No. A player, who tosses the ball and then decides not to hit it, is allowed to catch the ball with the hand or the racket, or to let the ball bounce.

Case 2: During a singles match played on a court with net posts and singles sticks, the ball served hits a singles stick and then hits the correct service court. Is this a fault?

Decision: Yes.

20. SECOND SERVICE (OLD 11)

If the first service is a fault, the server shall serve again without delay from

behind the same half of the court from which that fault was served, unless the service was from the wrong half.

USTA Comment 20.1: *Before returning the second serve, may the receiver clear a ball from a first service fault that has rebounded onto the playing area?* Yes.

21. WHEN TO SERVE & RECEIVE (OLD 12 & 30)

The server shall not serve until the receiver is ready. However, the receiver shall play to the reasonable pace of the server and shall be ready to receive within a reasonable time of the server being ready.

A receiver who attempts to return the service shall be considered as being ready. If it is demonstrated that the receiver is not ready, the service cannot be called a fault.

USTA Comment 21.1: *Does this rule apply to the first and second serve?* Yes. This rule applies separately to both the first and second serve.

USTA Comment 21.2: *Once ready, can the receiver become unready?* The receiver cannot become unready unless outside interference occurs.

USTA Comment 21.3: *May the server hit the serve just as the receiver looks up after getting into the ready position?* No. The receiver is not ready until the receiver is in the ready position and has a second or two to make eye contact with the server.

USTA Comment 21.4: *How much time may elapse from the moment the ball goes out of play at the end of the point until the serve is struck to start the next point?* When practical this time should not exceed 20 seconds. This limit does not apply if a player has to chase a stray ball.

USTA Comment 21.5: *Does the 20-second provision of Rule 29 apply to the second serve?* No. The server must strike the second serve without delay.

USTA Comment 21.6: *Should the server be penalized for delay if the server was not tossing the ball until about 15 seconds after the end of the previous point even though the receiver was ready within 10 seconds?* No. The server is entitled to establish the pace as long as it is reasonable. This means that the server has up to 20 seconds to put the ball in play.

USTA Comment 21.7: *Should the receiver be penalized for delay if the receiver was not getting into a ready position until 18 seconds after the end of the previous point even though the server was ready to serve within about 15 seconds?* Yes. The receiver is subject to a Time Violation. The receiver must play to the reasonable pace of the server. (A pace of 12 to 15 seconds is considered reasonable.)

USTA Comment 21.8: *May the server suddenly increase the pace from 20 seconds to 12 seconds?* No. The server may speed up the pace only so long as the new pace is reasonable and only so long as the change does not occur suddenly.

USTA Comment 21.9: *What happens when the server observes that the receiver appears to be ready and hits the second serve in, but the receiver makes no attempt to return it?* The Server wins the point if the receiver had no reason for not being ready; if the receiver was not ready because of something within the receiver's control (broken string or contact lens problem), then the server gets two serves; and if the receiver was not ready because of some reasonable factor such as clearing the errant first serve or a ball from an adjacent court, then the server gets one serve. If the time to clear the ball from the adjacent court is so prolonged as to constitute an interruption, good sportsmanship requires the receiver to offer the server two serves.

22. THE LET DURING A SERVE (OLD 14)

The serve is a let if:

- a. The ball served touches the net, strap or band, and is otherwise good; or, after touching the net, strap or band, touches the receiver or the receiver's partner or anything they wear or carry before hitting the ground; or,
- b. The ball is served when the receiver is not ready.

In the case of a service let, that particular service shall not count, and the server shall serve again, but a service let does not cancel a previous fault.

USTA Comment 22.1 *May the receiver claim a let if the server loses control and grip of the racket and it lands during the service in the server's court?* No. Such an occurrence is not sufficiently unusual to justify a let.

23. THE LET (OLD 13 & 25)

In all cases when a let is called, except when a service let is called on a second service, the whole point shall be replayed.

Case 1: When the ball is in play, another ball rolls onto court. A let is called. The server had previously served a fault. Is the server now entitled to a first service or second service?

Decision: First service. The whole point must be replayed.

USTA Comment 23.1: *What happens when the server is interrupted during delivery of the second service?* The server is entitled to two serves.

USTA Comment 23.2: *What happens when there is a delay between the first and second serves?* If the delay is caused by the receiver (such as a broken string or contact lens problem), an official, or outside interference, the whole point is replayed. If the server caused the delay, such as when the server breaks a string, the server gets one serve. Note that a spectator's call ("out," "fault," or other), a spectator's ringing cell phone, or grunting on an adjacent court is not basis for replaying the point. Action should be taken to prevent further spectator interference.

USTA Comment 23.3: *What happens when a ball from an adjacent court rolls on the court between the first and second serves?* The time it takes to clear an intruding ball between the first and second serves is not considered sufficient time to warrant the server receiving two serves unless this time is so prolonged as to constitute an interruption. The receiver is the judge of whether the delay is sufficiently prolonged to justify giving the server two serves.

24. PLAYER LOSES POINT (OLD 18, 19, 20 & 40)

The point is lost if:

- a. The player serves two consecutive faults; or
- b. The player does not return the ball in play before it bounces twice consecutively; or
- c. The player returns the ball in play so that it hits the ground, or an object, outside the correct court; or
- d. The player returns the ball in play so that, before it bounces, it hits a permanent fixture; or
- e. The player deliberately carries or catches the ball in play on the racket or deliberately touches it with the racket more than once; or
- f. The player or the racket, whether in the player's hand or not, or any-

thing which the player is wearing or carrying touches the net, net posts/singles sticks, cord or metal cable, strap or band, or the opponent's court at any time while the ball is in play; or

- g. The player hits the ball before it has passed the net; or
- h. The ball in play touches the player or anything that the player is wearing or carrying, except the racket; or
- i. The ball in play touches the racket when the player is not holding it; or
- j. The player deliberately and materially changes the shape of the racket when the ball is in play; or
- k. In doubles, both players touch the ball when returning it.

Case 1: After the server has served a first service, the racket falls out of the server's hand and touches the net before the ball has bounced. Is this a service fault, or does the server lose the point?

Decision: The server loses the point because the racket touches the net while the ball is in play.

Case 2: After the server has served a first service, the racket falls out of the server's hand and touches the net after the ball has bounced outside the correct court. Is this a service fault, or does the server lose the point?

Decision. This is a service fault because when the racket touched the net the ball was no longer in play.

Case 3. In a doubles match, the receiver's partner touches the net before the ball that has been served touches the ground outside the correct service court. What is the correct decision?

Decision. The receiving team loses the point because the receiver's partner touched the net while the ball was in play.

Case 4: Does a player lose the point if an imaginary line in the extension of the net is crossed before or after hitting the ball?

Decision: The player does not lose the point in either case provided the player does not touch the opponent's court.

Case 5. Is a player allowed to jump over the net into the opponent's court while the ball is in play?

Decision. No. The player loses the point.

Case 6. A player throws the racket at the ball in play. Both the racket and the ball land in the court on the opponent's side of the net and the opponent(s) is unable to reach the ball. Which player wins the point?

Decision. The player who threw the racket at the ball loses the point.

Case 7. A ball that has just been served hits the receiver or in doubles the receiver's partner before it touches the ground. Which player wins the point?

Decision. The server wins the point, unless it is a service let.

Case 8. A player standing outside the court hits the ball or catches it before it bounces and claims the point because the ball was definitely going out of the correct court.

Decision. The player loses the point, unless it is a good return, in which case the point continues.

USTA Comment 24.1: *Does a player lose the point if the player's hat hits the net?* Yes. A player loses the point when any part of the player's body, equipment, or apparel touches the net.

USTA Comment 24.2: *What happens if the ball hits a player's hat that landed on the court earlier in the point?* The ball remains in play because the opponent did not ask for a let. When play continued after the hat landed on the court, the hat became a part of the court. Therefore when a ball hits the hat, it is treated in the same manner as if the ball had hit the court.

USTA Comment 24.3: *If a player's hat falls off during a point, may the opponent stop play and claim a let?* Yes. The opponent's immediate request should be granted. A let should not be granted after the point nor should a request from the player who lost the hat.

USTA Comment 24.4: *What happens if a player's dampening device comes out and hits the net or the opponent's court?* The player loses the point unless the ball went out of play before the device hit the net or court. If the device is not discovered until after the point is over, the point stands as played.

USTA Comment 24.5: *Does a player lose a point if the ball hits his racket twice during one swing?* No. Only when there is a definite and deliberate "second push" by the player does the shot become illegal. "Deliberately" is the key word in this rule. Two hits occurring during a single continuous swing are not deemed a double hit.

USTA Comment 24.6: *Does the clashing of rackets make the return illegal?* No. Unless it is clear that more than one racket touched the ball.

USTA Comment 24.7: *Does a player who touches a pipe support that runs across the court at the bottom of the net lose the point?* Yes. The pipe support is considered a part of the net *except* when a ball hits it, in which case the pipe support is considered part of the court.

USTA Comment 24.8: *What happens if a player in stretching to hit a ball allows the racket to fall to the ground and the ball then goes into the court for a winner?* The player wins the point unless the racket was not in the player's hand at the instant the ball was struck.

25. A GOOD RETURN (OLD 24)

It is a good return if:

- a. The ball touches the net, net posts/singles sticks, cord or metal cable, strap or band, provided that it passes over any of them and hits the ground within the correct court; except as provided in **Rule 2** and **24 (d)**; or
- b. After the ball in play has hit the ground within the correct court and has spun or been blown back over the net, the player reaches over the net and plays the ball into the correct court, provided that the player does not break **Rule 24**; or
- c. The ball is returned outside the net posts, either above or below the level of the top of the net, even though it touches the net posts, provided that it hits the ground in the correct court; except as provided in **Rules 2** and **24 (d)**; or
- d. The ball passes under the net cord between the singles stick and the adjacent net post without touching either net, net cord or net post and hits the ground in the correct court, or
- e. The player's racket passes over the net after hitting the ball on the player's own side of the net and the ball hits the ground in the correct court; or
- f. The player hits the ball in play, which hits another ball lying in the correct court.

Case 1: A player returns a ball which then hits a singles stick and hits the ground in the correct court. Is this a good return?

Decision: Yes. However, if the ball is served and hits the singles stick, it is a service fault.

Case 2: A ball in play hits another ball which is lying in the correct court. What is the correct decision?

Decision: Play continues. However, if it is not clear that the actual ball in play has been returned, a let should be called.

USTA Comment 25.1: *What happens if the ball in play strikes a ball that came from another court after the start of the point?* Replay the point.

USTA Comment 25.2: *Must a request to remove a ball that is lying in the opponent's Court be honored?* Yes, but not while the ball is in play. Additionally, a request to remove a ball that is outside the Court but reasonably close to the lines also must be honored.

USTA Comment 25.3: *In doubles is it a good return if a ball passes under the net cord and inside the post without touching either in a doubles match?* No. This is a "through."

USTA Comment 25.4: *Does a player lose the point if the opponent's ball touches a pipe support that runs across the court at the bottom of the net?* No. The pipe support is considered a part of the court except that it is considered part of the net when a player, or anything the player wears or carries, touches the pipe support.

26. HINDRANCE (OLD 21, 25 & 36)

If a player is hindered in playing the point by a deliberate act of the opponent(s), the player shall win the point.

However, the point shall be replayed if a player is hindered in playing the point by either an unintentional act of the opponent(s), or something outside the player's own control (not including a permanent fixture).

Case 1: Is an unintentional double hit a hindrance?

Decision: No. See also **Rule 24 (e)**.

Case 2: A player claims to have stopped play because the player thought that the opponent(s) was being hindered. Is this a hindrance?

Decision: No, the player loses the point.

Case 3: A ball in play hits a bird flying over the court. Is this a hindrance?

Decision: Yes, the point shall be replayed.

Case 4: During a point, a ball or other object that was lying on the player's side of the net when the point started hinders the player. Is this a hindrance?

Decision: No.

Case 5: In doubles, where are the server's partner and receiver's partner allowed to stand?

Decision: The server's partner and the receiver's partner may take any position on their own side of the net, inside or outside the court. However, if a player is creating a hindrance to the opponent(s), the hindrance rule should be used.

USTA Comment 26.1: *What is the difference between a deliberate and an unintentional act?* Deliberate means a player did what the player intended to do, even if the result was unintended. An example is a player who advises the player's partner in such a loud voice that their opponents are hindered. Unintentional refers to an act over which a player has no control, such as a hat blowing off or a scream after a wasp sting.

USTA Comment 26.2: *Can a player's own action be the basis for that player claiming a let or a hindrance?* No. Nothing a player does entitles that player to call a let. For example, a player is not entitled to a Let because the player breaks a string, the player's hat falls off, or a ball in the player's pocket falls out.

USTA Comment 26.3: *What happens if a player's cell phone rings while the ball is in play?* Because the player created the disturbance by bringing the phone to the court and not turning it off, the player is not entitled to a let. If the referee did not notify the players that cell phones should be turned off and if this is the first time that the phone has rung, then the opponent is entitled to a let. If the referee notified the players or if the phone has rung more than once, the opponent may claim the point based on a deliberate hindrance.

USTA Comment 26.4: *Can the server's discarding of a second ball constitute a hindrance?* Yes. If the receiver asks the server to stop discarding the ball, then the server shall stop. Any continued discarding of the ball constitutes a deliberate hindrance, and the server loses the point.

USTA Comment 26.5: *Is an out call or other noise from a spectator a hindrance that allows a point to be replayed?* No. The actions of a spectator in an area designated for spectators is not the basis for replaying a point.

27. CORRECTING ERRORS (NEW)

As a principle, when an error in respect of the Rules of Tennis is discovered, all points previously played shall stand. Errors so discovered shall be corrected as follows:

a. (OLD 9.a.11., & 8.27.b.iii)

During a standard game or a tie-break game, if a player serves from the wrong half of the court, this should be corrected as soon as the error is discovered and the server shall serve from the correct half of the court according to the score. A fault that was served before the error was discovered shall stand.

b. (OLD 16)

During a standard game or a tie-break game, if the players are at the wrong ends of the court, the error should be corrected as soon as it is discovered and the server shall serve from the correct end of the court according to the score.

c. (OLD 15 & 37)

If a player serves out of turn during a standard game, the player who was originally due to serve shall serve as soon as the error is discovered. However, if a game is completed before the error is discovered the order of service shall remain as altered.

A fault that was served by the opponents(s) before the error was discovered shall not stand.

In doubles, if the partners of one team serve out of turn, a fault that was served before the error was discovered shall stand.

d. (OLD 27, Case 3)

If a player serves out of turn during a tie-break game and the error is discovered after an even number of points have been played, the error is corrected immediately. If the error is discovered after an odd number of points have been played, the order of service shall remain as altered.

A fault that was served by the opponent(s) before the error was discovered shall not stand.

In doubles, if the partners of one team serve out of turn, a fault that was served before the error was discovered shall stand.

USTA Comment: Rule 27d contains new language that clarified the old language. The results are unchanged.

e. (OLD 38)

During a standard game or a tie-break game in doubles, if there is an error in the order of receiving, this shall remain as altered until the end of the game in which the error is discovered. For the next game in which they are the receivers in that set, the partners shall then resume the original order of receiving.

f. (OLD 27, Case 1)

If in error a tie-break game is started at 6 games all, when it was previously agreed that the set would be an "Advantage set", the error shall be corrected immediately if only one point has been played. If the error is discovered after the second point is in play, the set will continue as a "Tie-break set".

g. (OLD 27, Case 2)

If in error a standard game is started at 6 games all, when it was previously agreed that the set would be a "Tie-break set", the error shall be corrected immediately if only one point has been played. If the error is discovered after the second point is in play, the set will continue as an "Advantage set" until the score reaches 8 games all (or a higher even number), when a tie-break game shall be played.

h. (NEW)

If in error an "Advantage set" or "Tie-break set" is started, when it was previously agreed that the final set would be a deciding match tie-break, the error shall be corrected immediately if only one point has been played. If the error is discovered after the second point is in play, the set will continue either until a player or team wins three games (and therefore the set) or until the score reaches 2 games all,

when a deciding match tie-break shall be played. However, if the error is discovered after the fifth game has started, the set will continue as a "Tie-break set" (See **Appendix IV**).

i. (OLD 32)

If the balls are not changed in the correct sequence, the error shall be corrected when the player/team who should have served with new balls is next due to serve a new game. Thereafter the balls shall be changed so that the number of games between ball changes shall be that originally agreed. Balls should not be changed during a game.

USTA Comments on Correcting Errors

USTA Comment 27.1: Errors as to Ends, Sides, Rotation, and Service Order, Etc. The general guiding philosophy regarding any mistakes made by players in failing to change ends, serving from wrong ends, serving to the wrong court, receiving from the wrong court, etc., is this: Any such error shall be rectified as soon as discovered but not while the ball is in play, and any points completed under the erroneous condition shall be counted.

There are only three exceptions to the "rectify immediately" requirement. One is in the case of a doubles match where the players of one team happened to reverse their left court/right court receiving lineup in the middle of a set, and the switch is discovered in the middle of a game. In this case the players finish that game in the "new" positions, but resume their original lineup in all receiving games thereafter in that set.

The second is where a ball change has not taken place in proper sequence. **Rule 27i** now says that this mistake shall be corrected when the player, or pair in case of doubles, who should have served with the new balls is next due to serve. Do not change in mid-game.

The third occurs in a Tiebreak, either singles or doubles, in various situations.

USTA Comment 27.2: *The tournament announced on its entry form that the Deciding Match Tiebreak would be used in lieu of the third set. The players inadvertently play a regular Tiebreak Set until they realize the mistake at 3-0. What should happen?* Since the mistake was discovered before the start of the fifth game, the player who is ahead 3-0 has won the set and the final set score should be shown as 3-0.

USTA Comment 27.3: *The tournament announced on its entry form that the 10-point Deciding Match Tiebreak would be used in lieu of the third set. The players inadvertently play a regular Tiebreak Set until they realize the mistake at 2-1 and 30-all. What should happen?*

Since the mistake was discovered before the start of the fifth game, the players must continue playing until the score reaches 3-1 or 2-2. If the score reaches 3-1, the player who is ahead wins the set and the final set score is recorded as 3-1. If the score reaches 2-2, a 10-point Deciding Match Tiebreak is played. The score is recorded as 3-2(x) with the score in the Deciding Tiebreak placed inside the parentheses.

USTA Comment 27.4: *The tournament announced on its entry form that the Deciding Match Tiebreak would be used in lieu of the third set. The players inadvertently play a regular Tiebreak Set until they realize the mistake after the server has served a first service fault to start the fifth game of the final set. What should happen?* Regardless of whether the score is 2-2, 3-1, or 4-0, the players must continue playing a full Tiebreak set because they have started the fifth game. If the score reaches 6-all the players would play a 7-point Set Tiebreak. The score is recorded the same as any other Tiebreak set.

USTA Comment 27.5: *Player A should have served the first point of the second set Tiebreak, but instead Player B served the first point. Pursuant to Rule 27d, the order of service remained as altered. Who serves the first game of the final set?* Player B serves the first game. **Rule 5b** states that the player whose turn it was to serve first in the Set Tiebreak shall be the Receiver in the first game of the following set.

USTA Comment 27.6: *Same situation as in USTA Comment 27.5 except that a Deciding Match Tiebreak is to be played in lieu of the third set. Who serves first in the Deciding Match Tiebreak that is to be played in lieu of the final set?* Player B.

USTA Comment 27.7: *The tournament announced that the 10-point Deciding Match Tiebreak would be played in lieu of the third set. The players split sets. With Player A ahead 7-5 in the Deciding Match Tiebreak, Player A comes to the net to shake hands with Player B. Player B refuses to shake hands because Player B contends that the Deciding Match Tiebreak is not over. What should happen?* The players should keep on playing because the Deciding Match Tiebreak is not yet over.

USTA Comment 27.8: *Same situation as in USTA Comment 27.7 except that Player B shakes hands. The players report to the Referee that Player A won the Deciding Match Tiebreak 7-5. Does Player A win the match?* Yes. By shaking hands the players have acknowledged that they agreed the match was over. The 7-point Deciding Match Tiebreak was played in good faith so Player A wins the match, and the final set score should be recorded 1-0 (5).

28. ROLE OF COURT OFFICIALS (OLD 29)

For matches where officials are appointed, their roles and responsibilities can be found in **Appendix V**.

29. CONTINUOUS PLAY (OLD 29 & 30)

As a principle, play should be continuous, from the time the match starts (when the first service of the match is put in play) until the match finishes.

- a. Between points, a maximum of twenty (20) seconds is allowed. When the players change ends at the end of a game, a maximum of ninety (90) seconds are allowed. However, after the first game of each set and during a tie-break game, play shall be continuous and the players shall change ends without a rest.

USTA Comment 29.1: *The 20-second time limit does not apply if a player has to chase a stray ball. See Rule 21 and USTA Comments 21.1-9 for more information about when the server and receiver must be ready.*

At the end of each set there shall be a set break of a maximum of one hundred and twenty (120) seconds.

The maximum time starts from the moment that one point finishes until the first service is struck for the next point.

Organisers of professional circuits may apply for ITF approval to extend the ninety (90) seconds allowed when the players change ends at the end of a game and the one hundred and twenty (120) seconds allowed at a set break.

- b. If, for reasons outside the player's control, clothing, footwear or necessary equipment (excluding the racket) is broken or needs to be replaced, the player may be allowed reasonable extra time to rectify the problem.
- c. No extra time shall be given to allow a player to recover condition. However, a player suffering from a treatable medical condition may be allowed one medical time-out of three minutes for the treatment of that medical condition. A limited number of toilet/change of attire breaks may also be allowed, if this is announced in advance of the event.
- d. Event organisers may allow a rest period of a maximum of ten (10) minutes if this is announced in advance of the event. This rest period can be taken after the 3rd set in a best of 5 sets match, or after the 2nd set in a best of 3 sets match.

USTA Comment 29.2: *USTA Regulation I.T. sets forth provisions for rest between sets in different divisions.*

- e. The warm-up time shall be a maximum of five (5) minutes, unless otherwise decided by the event organisers.

USTA Comment 29.3: *May play be suspended to replace a lost contact lens? Yes. Whenever possible the player should replace the lens on the court. If the weather, court surface, or other conditions make it impossible to insert the lens on the court, the player should insert the lens in the area closest to the court where this task is possible.*

USTA Comment 29.4: *When the weather is misty, may play be suspended to allow a player who wears glasses to insert contact lenses? No. The player may change into contacts only on the court and only during a changeover. This case is different from a lost contact lens because the player chose to begin playing the match with glasses.*

USTA Comment 29.5: *See USTA Comment 4.2 for what happens when a player asks to leave the court to get a replacement racket.*

USTA Comment 29.6: *If there are no ball persons, may the warm-up be extended beyond five minutes? Yes. The warm-up may be extended to ten minutes.*

USTA Comment 29.7: *When are the players entitled to another warm-up after their match has been suspended? The players are entitled to a re-warm-up of the same duration as the original warm-up if a match has been suspended for more than 10 minutes. They are not entitled to a re-warm-up after an authorized intermission. When possible, used balls other than the match balls should be used for the re-warm-up, and the match balls should be used only once play resumes. If match balls are used for the re-warm-up and balls are being changed after a designated number of games, the next ball change occurs two games sooner.*

USTA Comment 29.8: *A best-of-five sets match with an authorized rest period after the third set is suspended because of darkness at one set all. The match is resumed the next day. When Player A wins a long set, Player B claims entitlement to a rest period. Is Player B entitled to a rest period? No. Although this was the third set of the match, it was only the first set on that day. If there is a prolonged interruption, such as one caused by rain, and play is resumed on the same day, the players should be informed as to the point at which, if any, a rest period might later be taken.*

30. COACHING (OLD 31)

Coaching is considered to be communication, advice or instruction of any

kind, audible or visible, to a player.

In team events where there is a team captain sitting on-court, the team captain may coach the player(s) during a set break and when the players change ends at the end of a game, but not when the players change ends after the first game of each set and not during a tie-break game.

In all other matches, coaching is not allowed.

Case 1: Is a player allowed to be coached, if the coaching is given by signals in a discreet way?

Decision: No.

Case 2: Is a player allowed to receive coaching when play is suspended?

Decision: Yes.

USTA Comment 30.1: A player may bring to the court written notes that were prepared before the start of the match and may read these notes during the match. Use of any device (e.g. cell phones, digital messaging systems, radios, mp3 players, cd and dvd players, cassette players, and watches that receive digital messages) to receive coaching and other information is prohibited.

USTA Comment 30.2: *Is coaching permitted during authorized rest periods?* Yes. However, an authorized rest period does not include a Toilet Break, a Set Break, Medical Time-Out, Bleeding Time-Out, when play is suspended but the players remain on the court, when a player leaves the court seeking the assistance of the Referee, or when equipment or clothing is being adjusted.

USTA Comment 30.3: *Is coaching permitted in the USA League Programs?* No. Even though the USA League Programs are team competitions for adults and seniors, coaching is not permitted under league rules, except during authorized rest periods or as otherwise permitted.

RULES OF WHEELCHAIR TENNIS

The game of wheelchair tennis follows the ITF Rules of Tennis with the following exceptions.

a. The Two Bounce Rule

The wheelchair tennis player is allowed two bounces of the ball. The player must return the ball before it hits the ground a third time. The second bounce can be either in or out of the court boundaries.

b. The Wheelchair

The wheelchair is considered part of the body and all applicable rules, which apply to a player's body, shall apply to the wheelchair.

c. The Service

i. The service shall be delivered in the following manner. Immediately before commencing the service, the server shall be in a stationary position. The server shall then be allowed one push before striking the ball.

ii. The server shall throughout the delivery of the service not touch with any wheel, any area other than that behind the baseline within the imaginary extension of the centre mark and sideline.

iii. If conventional methods for the service are physically impossible for a quadriplegic player, then the player or an individual may drop the ball for such a player. However, the same method of serving must be used each time.

d. Player Loses Point

A player loses a point if:

i. The player fails to return the ball before it has touched the ground three times; or

ii. Subject to rule e) below the player uses any part of his feet or lower extremities as brakes or as stabilisers while delivering service, stroking a ball, turning or stopping against the ground or against any wheel while the ball is in play; or

iii. The player fails to keep one buttock in contact with his wheelchair seat when contacting the ball.

e. Propelling the Chair with the Foot

i. If due to lack of capacity a player is unable to propel the wheelchair via the wheel then he may propel the wheelchair using one foot.

ii. Even if in accordance with rule e) i. above a player is permitted to propel the chair using one foot, no part of the player's foot may be in contact with the ground:

a) during the forward motion of the swing, including when the racket strikes the ball;

b) from the initiation of the service motion until the racket strikes the ball.

iii. A player in breach of this rule shall lose the point.

f. Wheelchair/Able-bodied Tennis

Where a wheelchair tennis player is playing with or against an able-bodied person in singles or doubles, the Rules of Wheelchair Tennis shall apply for the wheelchair player while the Rules of Tennis for able-bodied tennis shall apply for the able-bodied player. In this instance, the wheelchair player is allowed two bounces while the able-bodied player is allowed only one bounce.

Note: The definition of lower extremities is: -the lower limb, including the buttocks, hip, thigh, leg, ankle and foot.

AMENDMENT TO THE RULES OF TENNIS

The official and decisive text to the Rules of Tennis shall be for ever in the English language and no alteration or interpretation of such Rules shall be made except at an Annual General Meeting of the Council, nor unless notice of the resolution embodying such alteration shall have been received by the Federation in accordance with Article 17 of the Constitution of ITF Ltd (Notice of Resolutions) and such resolution or one having the like effect shall be carried by a majority of two-thirds of the votes recorded in respect of the same.

Any alteration so made shall take effect as from the first day of January following unless the Meeting shall by the like majority decide otherwise.

The Board of Directors shall have power, however, to settle all urgent questions of interpretation subject to confirmation at the General Meeting next following.

This Rule shall not be altered at any time without the unanimous consent of a General Meeting of the Council.

USTA Comment: *The ITF, not the USTA, is responsible for the Rules of Tennis. Amendments to the Rules of Tennis are made through the procedures of the ITF. Rule 69 of the ITF controls the manner in which amendments may be made to the Rules of Tennis. Amendments to USTA Comments are made by the process described in USTA Regulation XII.H.*

APPENDIX I

THE BALL

- a. The ball shall have a uniform outer surface consisting of a fabric cover and shall be white or yellow in colour. If there are any seams they shall be stitchless.
- b. The ball shall conform to these requirements and have a weight (mass) of more than 1.975 ounces (56.0 grams) and less than 2.095 ounces (59.4 grams).
- c. More than one type of ball is specified. Each ball shall have a bound of more than 53 inches (134.62 cm) and less than 58 inches (147.32 cm) when dropped 100 inches (254.00 cm) upon a flat, rigid surface e.g. concrete. Ball Type 1 (fast speed) shall have a forward deformation of more than .195 inches (.495 cm) and less than .235 inches (.597 cm) and return deformation of more than .265 inches (.673 cm) and less than .360 inches (.914 cm) at 18 lb (8.165 kg) load. Ball Types 2 (medium speed) and 3 (slow speed) shall have a forward deformation

of more than .220 inches (.559 cm) and less than .290 inches (.737 cm) and return deformation of more than .315 inches (.800 cm) and less than .425 inches (1.080 cm) at 18 lb (8.165 kg) load. The two deformation figures shall be the averages of three individual readings along three axes of the ball and no two individual readings shall differ by more than .030 inches (.076 cm) in each case.

- d. For play above 4,000 feet (1219 m) in altitude above sea level, two additional types of ball may be used.
 - i. The first type is identical to Ball Type 2 (medium speed) as defined above except that the ball shall have a bound of more than 48 inches (121.92 cm) and less than 53 inches (134.62 cm) and shall have an internal pressure that is greater than the external pressure. This type of tennis ball is commonly known as a pressurised ball.
 - ii. The second type is identical to Ball Type 2 (medium speed) as defined above except that the ball shall have an internal pressure that is approximately equal to the external pressure and have been acclimatised for 60 days or more at the altitude of the specific tournament. This type of tennis ball is commonly known as a zero-pressure or non-pressurised ball.

The third type of ball which is recommended for use for play on any court surface type above 4,000 feet (1219 m) in altitude is the Ball Type 3 (slow speed), as defined above.

- e. All tests for bound, size and deformation shall be made in accordance with the regulations below.

Case 1: Which ball type should be used on which court surface?

Decision: 3 different types of balls are approved for play under the Rules of Tennis, however:

- a. *Ball Type 1 (fast speed) is intended for play on slow pace court surfaces*
- b. *Ball Type 2 (medium speed) is intended for play on medium/medium-fast pace court surfaces*
- c. *Ball Type 3 (slow speed) is intended for play on fast pace court surfaces*

REGULATIONS FOR MAKING TESTS

- i. Unless otherwise specified all tests shall be made at a temperature of approximately 68° Fahrenheit (20° Celsius) and a relative humidity of approximately 60%. All balls shall be removed from their container and kept at the recognised temperature and humidity for 24 hours prior to testing, and shall be at that temperature and humidity when the test is commenced.
- ii. Unless otherwise specified the limits are for a test conducted in an atmospheric pressure resulting in a barometric reading of approximately 30 inches (76 cm).

- iii. Other standards may be fixed for localities where the average temperature, humidity or average barometric pressure at which the game is being played differ materially from 68° Fahrenheit (20° Celsius), 60% and 30 inches (76 cm) respectively.

Applications for such adjusted standards may be made by any National Association to the International Tennis Federation and, if approved, shall be adopted for such localities.

- iv. In all tests for diameter, a ring gauge shall be used consisting of a metal plate, preferably non-corrosive, of a uniform thickness of one-eighth of an inch (.318 cm). In the case of Ball Type 1 (fast speed) and Ball Type 2 (medium speed) balls there shall be two circular openings in the plate measuring 2.575 inches (6.541 cm) and 2.700 inches (6.858 cm) in diameter respectively. In the case of Ball Type 3 (slow speed) balls there shall be two circular openings in the plate measuring 2.750 inches (6.985 cm) and 2.875 inches (7.302 cm) in diameter respectively. The inner surface of the gauge shall have a convex profile with a radius of one-sixteenth of an inch (.159 cm). The ball shall not drop through the smaller opening by its own weight and shall drop through the larger opening by its own weight.
- v. In all tests for deformation conducted under **Rule 3**, the machine designed by Percy Herbert Stevens and patented in Great Britain under Patent No. 230250, together with the subsequent additions and improvements thereto, including the modifications required to take return deformations, shall be employed. Other machines may be specified which give equivalent readings to the Stevens machine and these may be used for testing ball deformation where such machines have been given approval by the International Tennis Federation.
- vi. The procedure for carrying out tests is as follows and should take place in the order specified:
 - a. Pre-compression—before any ball is tested it shall be steadily compressed by approximately one inch (2.54 cm) on each of three diameters at right angles to one another in succession; this process to be carried out three times (nine compressions in all). All tests are to be completed within two hours of pre-compression.
 - b. Weight (mass) test (as above).
 - c. Size test (as in paragraph iv. above).
 - d. Deformation test—the ball is placed in position on the modified Stevens machine so that neither platen of the machine is in contact with the cover seam. The contact weight is applied, the pointer and the mark brought level, and the dials set to zero. The test weight is placed on the beam in a position that is equivalent to a load of 18 lb (8.165 kg) on the ball, after which the wheel is turned at a uniform speed such that five seconds elapse from the instant the beam leaves its seat until the pointer is brought level with the

mark. When turning ceases the reading is recorded (forward deformation). The wheel is turned again until figure ten is reached on the scale (1 inch (2.54 cm) deformation). The wheel is then rotated in the opposite direction at a uniform speed (thus releasing pressure) until the beam pointer again coincides with the mark. After waiting ten seconds, the pointer is adjusted to the mark if necessary. The reading is then recorded (return deformation). This procedure is repeated on each ball across the two diameters at right angles to the initial position and to each other.

- e. Bound test (as above)—measurements are to be taken from the concrete base to the bottom of the ball.

CLASSIFICATION OF COURT SURFACE PACE

The ITF test method used for determining the pace of a court surface is test method ITF CS 01/01 (ITF Surface Pace Rating) as described in the ITF publication entitled “An initial ITF study on performance standards for tennis court surfaces”.

Court surfaces which are found to have an ITF Surface Pace Rating of between 0 and 35 shall be classified as being Category 1 (slow pace). Examples of court surface types which conform to this classification will include most clay courts and other types of unbound mineral surface.

Court surfaces which are found to have an ITF Surface Pace Rating of between 30 and 45 shall be classified as being Category 2 (medium/medium-fast pace). Examples of court surface types which conform to this classification will include most hardcourts with various acrylic type coatings plus some textile surfaces.

Court surfaces which are found to have an ITF Surface Pace Rating of over 40 shall be classified as being Category 3 (fast pace). Examples of court surface types which conform to this classification will include most natural grass, artificial turf and some textile surfaces.

Note: The proposed overlap in ITF Surface Pace Rating values for the above categories is to allow some latitude in ball selection.

APPENDIX II THE RACKET

- a. The hitting surface of the racket shall be flat and consist of a pattern of crossed strings connected to a frame and alternately interlaced or bonded where they cross. The stringing pattern must be generally uniform and, in particular, not less dense in the centre than in any other area. The racket shall be designed and strung such that the playing characteristics are identical on both faces.

The strings shall be free of attached objects and protrusions other than those utilised solely and specifically to limit or prevent wear and tear or vibration. These objects and protrusions must be reasonable in size and placement for such purposes.

- b. The frame of the racket shall not exceed 29 inches (73.66 cm) in overall length, including the handle. The frame of the racket shall not exceed 12½ inches (31.75 cm) in overall width. The hitting surface shall not exceed 15½ inches (39.37 cm) in overall length, and 11½ inches (29.21 cm) in overall width.
- c. The frame, including the handle, shall be free of attached objects and devices other than those utilised solely and specifically to limit or prevent wear and tear or vibration, or to distribute weight. Any objects and devices must be reasonable in size and placement for such purposes.
- d. The frame, including the handle, and the strings, shall be free of any device which makes it possible to change materially the shape of the racket, or to change the weight distribution in the direction of the longitudinal axis of the racket which would alter the swing moment of inertia, or to deliberately change any physical property which may affect the performance of the racket during the playing of a point. No energy source that in any way changes or affects the playing characteristics of a racket may be built into or attached to a racket.

APPENDIX III ADVERTISING

1. Advertising is permitted on the net as long as it is placed on the part of the net that is within 3 feet (0.914 m) from the net posts and is produced in such a way that it does not interfere with the vision of the players or the playing conditions.
2. Advertising and other marks or material placed at the back and sides of the court shall be permitted unless it interferes with the vision of the players or the playing conditions.
3. Advertising and other marks or material placed on the court surface outside the lines is permitted unless it interferes with the vision of the players or the playing conditions.
4. Notwithstanding paragraphs (1), (2) and (3) above, any advertising, marks or material placed on the net or placed at the back and sides of the court, or on the court surface outside the lines may not contain white or yellow or other light colours that may interfere with the vision of the players or the playing conditions.
5. Advertising and other marks or material are not permitted on the court surface inside the lines of the court.

APPENDIX IV ALTERNATIVE SCORING METHODS

1. SCORE IN A GAME:

“No-Ad” Scoring Method

This alternative scoring method may be used.

A standard game is scored as follows with the server’s score being called first:

No point	-	“Love”
First point	-	“15”
Second point	-	“30”
Third point	-	“40”
Fourth point	-	“Game”

If both players/teams have won three points each, the score is “Deuce” and a deciding point shall be played. The receiver(s) shall choose whether to receive the service from the right half or the left half of the court. In doubles, the players of the receiving team cannot change positions to receive this deciding point. The player/team who wins the deciding point wins the “Game”.

In mixed doubles, the player of the same gender as the server shall receive the deciding point. The players of the receiving team cannot change positions to receive the deciding point.

USTA Comment IV.1: If the previous set did not go to a Set Tiebreak, under **Rule 14** the order of service continues. If the previous set went to a Set Tiebreak, under **Rule 5** the player or team that was scheduled to serve first in the Set Tiebreak receives first in the Deciding Match Tiebreak.

USTA Comment IV.2: *USTA Regulation I.V.11. authorizes the Referee to switch to No-Ad scoring before the start of any round without prior notice in all tournaments other than national junior championships after inclement weather or other factors cause the tournament to fall behind its published schedule.*

2. SCORE IN A SET:

“Short” Sets

The first player/team who wins four games wins that set, provided there is a margin of two games over the opponent(s). If the score reaches four games all, a tie-break game shall be played.

Deciding Match Tie-Break (7 Points)

When the score in a match is one set all, or two sets all in best of five sets

matches, one tie-break game shall be played to decide the match. This tie-break game replaces the deciding final set.

The player/team who first wins seven points shall win this match tie-break and the match provided there is a margin of two points over the opponent(s).

Deciding Match Tie-break (10 Points)

When the score in a match is one set all, or two sets all in best of five sets matches, one tie-break game shall be played to decide the match. This tie-break game replaces the deciding final set.

The player/team who first wins ten points shall win this match tie-break and the match provided there is a margin of two points over the opponent(s).

Note: *When using the deciding match tie-break to replace the final set:*

- *the original order of service continues. (Rules 5 and 14)*
- *in doubles, the order of serving and receiving within the team may be altered, as in the beginning of each set. (Rules 14 and 15)*
- *before the start of the deciding match tie-break there shall be a 120 seconds set break.*
- *balls should not be changed before the start of the deciding match tie-break even if a ball change is due.*

USTA Comment IV.3: *See USTA Regulation I.J.14., USTA Regulation I.V.4., USTA Regulation I.V.11, USTA Regulation III.A.4.o, USTA Regulation III.A.5.k., USTA Regulation III.A.6.b., USTA Regulation X.B.4, and USTA Regulation X.C.5. for when the Deciding Match Tiebreak may be used.*

APPENDIX V

ROLE OF COURT OFFICIALS

The referee is the final authority on all questions of tennis law and the referee's decision is final.

In matches where a chair umpire is assigned, the chair umpire is the final authority on all questions of fact during the match.

The players have the right to call the referee to court if they disagree with a chair umpire's interpretation of tennis law.

In matches where line umpires and net umpires are assigned, they make all calls (including foot-fault calls) relating to that line or net. The chair umpire has the right to overrule a line umpire or a net umpire if the chair umpire is sure that a clear mistake has been made. The chair umpire is responsible for calling any line (including foot-faults) or net where no line umpire or net umpire is assigned.

A line umpire who cannot make a call shall signal this immediately to the

chair umpire who shall make a decision. If the line umpire can not make a call, or if there is no line umpire, and the chair umpire can not make a decision on a question of fact, the point shall be replayed.

In team events where the referee is sitting on-court, the referee is also the final authority on questions of fact.

Play may be stopped or suspended at any time the chair umpire decides it is necessary or appropriate.

The referee may also stop or suspend play in the case of darkness, weather or adverse court conditions. When play is suspended for darkness, this should be done at the end of a set, or after an even number of games have been played in the set in progress. After a suspension in play, the score and position of players on-court in the match shall stand when the match resumes.

The chair umpire or referee shall make decisions regarding continuous play and coaching in respect of any Code of Conduct that is approved and in operation.

Case 1: The chair umpire awards the server a first service after an overrule, but the receiver argues that it should be a second service, since the server had already served a fault. Should the referee be called to court to give a decision?

Decision: Yes. The chair umpire makes the first decision about questions of tennis law (issues relating to the application of specific facts). However, if a player appeals the chair umpire's decision, then the referee shall be called to make the final decision.

Case 2: A ball is called out, but a player claims that the ball was good. May the referee be called to court to make a decision?

Decision: No. The chair umpire makes the final decision on questions of fact (issues relating to what actually happened during a specific incident).

Case 3: Is a chair umpire allowed to overrule a line umpire at the end of a point if, in the chair umpire's opinion, a clear mistake was made earlier in the point?

Decision: No. A chair umpire may only overrule a line umpire immediately after the clear mistake has been made.

Case 4: A line umpire calls a ball "Out" and then the player argues that the ball was good. Is the chair umpire allowed to overrule the line umpire?

Decision: No. A chair umpire must never overrule as the result of the protest or appeal by a player

Case 5: A line umpire calls a ball "Out". The chair umpire was unable to see clearly, but thought the ball was in. May the chair umpire overrule the line umpire?

Decision: No. The chair umpire may only overrule when sure that the line umpire made a clear mistake.

Case 6: Is a line umpire allowed to change the call after the chair umpire has announced the score?

Decision: Yes. If a line umpire realises a mistake, a correction should be made as soon as possible provided it is not as the result of a protest or appeal of a player.

Case 7: If a chair umpire or line umpire calls “out” and then corrects the call to good, what is the correct decision?

Decision: The chair umpire must decide if the original “out” call was a hindrance to either player. If it was a hindrance, the point shall be replayed. If it was not a hindrance, the player who hit the ball wins the point.

Case 8: A ball is blown back over the net and the player correctly reaches over the net to try to play the ball. The opponent(s) hinders the player from doing this. What is the correct decision?

Decision: The chair umpire must decide if the hindrance was deliberate or unintentional and either awards the point to the hindered player or order the point to be replayed.

USTA Comment V.1: *What is the difference between a “question of fact” and a “question of law”?* “Questions of fact” involve whether a specific event happened. Examples include whether a ball is in, whether a ball touched a player, whether a ball bounced twice, and whether a Server’s foot touched the baseline before the serve was struck. “Questions of law” involve the application of the rules or regulations to facts that have already been determined. Examples include determining whether an act was a hindrance; whether a player should have been assessed a code violation for misconduct; and the procedure for correcting errors in serving order, serving and receiving position, and ends.

PROCEDURES FOR REVIEW AND HEARINGS ON THE RULES OF TENNIS

1. INTRODUCTION

1.1 These procedures were approved by the Board of Directors of the International Tennis Federation (“Board of Directors”) on 17 May 1998.

1.2 The Board of Directors may from time to time supplement, amend, or vary these procedures.

2. OBJECTIVES

2.1 The International Tennis Federation is the custodian of the Rules of Tennis and is committed to:

- a. Preserving the traditional character and integrity of the game of tennis.
- b. Actively preserving the skills traditionally required to play the game.

- c. Encouraging improvements, which maintain the challenge of the game.
- d. Ensuring fair competition.

2.2 To ensure fair, consistent and expeditious review and hearings in relation to the Rules of Tennis the procedures set out below shall apply.

3. SCOPE

3.1 These Procedures shall apply to Rulings under:

- a. **Rule 1**—The Court.
- b. **Rule 3**—The Ball.
- c. **Rule 4**—The Racket.
- d. **Appendix I and II** of the Rules of Tennis.
- e. Any other Rules of Tennis which the International Tennis Federation may decide.

4. STRUCTURE

4.1 Under these procedures Rulings shall be issued by a Ruling Board.

4.2 Such Rulings shall be final save, for an entitlement to appeal to an Appeal Tribunal pursuant to these procedures.

5. APPLICATION

5.1 Rulings shall be taken either:

- a. Following a motion of the Board of Directors; or
- b. Upon the receipt of an application in accordance with the procedures set out below.

6. APPOINTMENT AND COMPOSITION OF RULING BOARDS

6.1 Ruling Boards shall be appointed by the President of the International Tennis Federation (“President”) or his designee and shall comprise of such a number, as the President or his designee shall determine.

6.2 If more than one person is appointed to the Ruling Board the Ruling Board shall nominate one person from amongst themselves to act as Chairperson.

6.3 The Chairperson shall be entitled to regulate the procedures prior to and at any review and/or hearing of a Ruling Board.

7. PROPOSED RULINGS BY THE RULING BOARD

7.1 The details of any proposed Ruling issued upon the motion of the Board of Directors may be provided to any bona fide person or any players, equipment manufacturer or national association or members thereof with an interest in the proposed Ruling.

7.2 Any person so notified shall be given a reasonable period within

which to forward comments, objections, or requests for information to the President or his designee in connection with the proposed Ruling.

8. APPLICATION FOR RULINGS

8.1 An application for a Ruling may be made by any party with a bona fide interest in the Ruling including any player, equipment manufacturer or national association or member thereof.

8.2 Any application for a Ruling must be submitted in writing to the President.

8.3 To be valid an application for a Ruling must include the following minimum information:

- a. The full name and address of the Applicant.
- b. The date of the application.
- c. A statement clearly identifying the interest of the Applicant in the question upon which a Ruling is requested.
- d. All relevant documentary evidence upon which the Applicant intends to rely at any hearing.
- e. If, in the opinion of the Applicant, expert evidence is necessary he shall include a request for such expert evidence to be heard. Such request must identify the name of any expert proposed and their relevant expertise.
- f. When an application for a Ruling on a racket or other piece of equipment is made, a prototype or, exact, copy of the equipment in question must be submitted with the application for a Ruling.
- g. If, in the opinion of the Applicant, there are extraordinary or unusual circumstances, which require a Ruling to be made within a specified time or before a specified date he shall include a statement describing the extraordinary or unusual circumstances.

8.4 If an application for a Ruling does not contain the information and/or equipment referred to at Clause 8.3 (a)-(g) above the President or his designee shall notify the Applicant giving the Applicant a specified reasonable time within which to remedy the defect. If the Applicant fails to remedy the defect within the specified time the application shall be dismissed.

9. CONVENING THE RULING BOARD

9.1 On receipt of a valid application or on the motion of the Board of Directors the President or his designee may convene a Ruling Board to deal with the application or motion.

9.2 The Ruling Board need not hold a hearing to deal with an application or motion where the application or motion, in the opinion of the Chairperson can be resolved in a fair manner without a hearing.

10. PROCEDURE OF THE RULING BOARD

10.1 The Chairperson of a Ruling Board shall determine the appropriate form, procedure and date of any review and/or hearing.

10.2 The Chairperson shall provide written notice of those matters set out at 10.1 above to any Applicant or any person or association who has expressed an interest in the proposed Ruling.

10.3 The Chairperson shall determine all matters relating to evidence and shall not be bound by judicial rules governing procedure and admissibility of evidence provided that the review and/or hearing is conducted in a fair manner with a reasonable opportunity for the relevant parties to present their case.

10.4 Under these procedures any review and/or hearings:

- a. Shall take place in private.
- b. May be adjourned and/or postponed by the Ruling Board.

10.5 The Chairperson shall have the discretion to co-opt from time to time additional members onto the Ruling Board with special skill or experience to deal with specific issues, which require such special skill or experience.

10.6 The Ruling Board shall take its decision by a simple majority. No member of the Ruling Board may abstain.

10.7 The Chairperson shall have the complete discretion to make such order against the Applicant [and/or other individuals or organisations commenting objecting or requesting information at any review and/or hearing] in relation to the costs of the application and/or the reasonable expenses incurred by the Ruling Board in holding tests or obtaining reports relating to equipment subject to a Ruling as he shall deem appropriate.

11. NOTIFICATION

11.1 Once a Ruling Board has reached a decision it shall provide written notice to the Applicant, or, any person or association who has expressed an interest in the proposed Ruling as soon as reasonably practicable.

11.2 Such written notice shall include a summary of the reasoning behind the decision of the Ruling Board.

11.3 Upon notification to the Applicant or upon such other date specified by the Ruling Board the Ruling of the Ruling Board shall be immediately binding under the Rules of Tennis.

12. APPLICATION OF CURRENT RULES OF TENNIS

12.1 Subject to the power of the Ruling Board to issue interim Rulings the current Rules of Tennis shall continue to apply until any review and/or hearing of the Ruling Board is concluded and a Ruling issued by the Ruling Board.

12.2 Prior to and during any review and/or hearing the Chairperson of the Ruling Board may issue such directions as are deemed reasonably necessary in the implementation of the Rules of Tennis and of these procedures including the issue of interim Rulings.

12.3 Such interim Rulings may include restraining orders on the use of any equipment under the Rules of Tennis pending a Ruling by the Ruling Board as to whether or not the equipment meets the specification of the Rules of Tennis.

13. APPOINTMENT AND COMPOSITION OF APPEAL TRIBUNALS

13.1 Appeal Tribunals shall be appointed by the President or his designee from [members of the Board of Directors/Technical Commission].

13.2 No member of the Ruling Board who made the original Ruling shall be a member of the Appeal Tribunal.

13.3 The Appeal Tribunal shall comprise of such number as the President or his designee shall determine but shall be no less than three.

13.4 The Appeal Tribunal shall nominate one person from amongst themselves to act as Chairperson.

13.5 The Chairperson shall be entitled to regulate the procedures prior to and at any appeal hearing.

14. APPLICATION TO APPEAL

14.1 An Applicant [or a person or association who has expressed an interest and forwarded any comments, objections, or requests to a proposed Ruling] may appeal any Ruling of the Ruling Board.

14.2 To be valid an application for an appeal must be:

a. Made in writing to the Chairperson of the Ruling Board who made the Ruling appealed not later than [45] days following notification of the Ruling;

b. Must set out details of the Ruling appealed against; and

c. Must contain the full grounds of the appeal.

14.3 Upon receipt of a valid application to appeal the Chairperson of the Ruling Board making the original Ruling may require a reasonable appeal fee to be paid by the Appellant as a condition of appeal. Such appeal fee shall be repaid to the Appellant if the appeal is successful.

15. CONVENING THE APPEAL TRIBUNAL

15.1 The President or his designee shall convene the Appeal Tribunal following payment by the Appellant of any appeal fee.

16. PROCEDURES OF APPEAL TRIBUNAL

16.1 The Appeal Tribunal and their Chairperson shall conduct procedures and hearings in accordance with those matters set out in sections 10, 11 and 12 above.

16.2 Upon notification to the Appellant or upon such other date specified by the Appeal Tribunal the Ruling of the Appeal Tribunal shall be immediately binding and final under the Rules of Tennis.

17. GENERAL

17.1 If a Ruling Board consists of only one member that single member shall be responsible for regulating the hearing as Chairperson and shall determine the procedures to be followed prior to and during any review and/or hearing.

17.2 All review and/or hearings shall be conducted in English. In any hearing where an Applicant, and/or other individuals or organisations commenting, objecting or requesting information do not speak English an interpreter must be present. Wherever practicable the interpreter shall be independent.

17.3 The Ruling Board or Appeal Tribunal may publish extracts from its own Rulings.

17.4 All notifications to be made pursuant to these procedures shall be in writing.

17.5 Any notifications made pursuant to these procedures shall be deemed notified upon the date that they were communicated, sent or transmitted to the Applicant or other relevant party.

A Ruling Board shall have the discretion to dismiss an application if in its reasonable opinion the application is substantially similar to an application or motion upon which a Ruling Board has made a decision and/or Ruling within the 36 months prior to the date of the application.

PLAN OF THE COURT

Fig. 1

SUGGESTIONS ON HOW TO MARK OUT A COURT

Fig. 2

The following procedure is for the usual combined Doubles and Singles Court. (See note at foot for a Court for one purpose only).

First select the position of the net; a straight line 42 feet (12.8 m) long. Mark the centre (X on the diagram above) and, measuring from there in each direction, mark:-

at 13'6" (4.11 m) the points a, b, where the net crosses the inner sidelines,
 at 16'6" (5.03 m) the positions of the singles posts (or sticks) (n, n),
 at 18'0" (5.49 m) the points A, B, where the net crosses the outer sidelines,
 at 21'0" (6.40 m) the positions of the net posts (N, N), being the ends of the original 42'0" (12.8 m) line.

Insert pegs at A and B and attach to them the respective ends of two measuring tapes. On one, which will measure the diagonal of the half-court, take a length 53'1" (16.18 m) and on the other (to measure the sideline) a length of 39'0" (11.89 m). Pull both taut so that at these distances they meet at a point C, which is one corner of the Court. Reverse the measurements to find the other corner D. As a check on this operation it is advisable at this stage to verify the length of the line CD which, being the baseline, should be found to be 36'0" (10.97m); and at the same time its centre J can be marked, and also the ends of the inner sidelines (c, d), 4'6" (1.37 m) from C and D.

The centre-line and service-line are now marked by means of the points F, H, G, which are measured 21'0" (6.40 m) from the net down the lines bc, XJ, ad, respectively.

Identical procedure the other side of the net completes the Court.

If a Singles Court only is required, no lines are necessary outside the points a, b, c, d, but the Court can be measured out as above. Alternatively, the corners of the base-line (c, d) can be found if preferred by pegging the two tapes at a and b instead of at A and B, and by then using lengths of 47'5" (14.46 m) and 39'0" (11.89 m). The net posts will be at n, n, and a 33'0" (10 m) singles net should be used.

When a combined Doubles and Singles Court with a doubles net is used for singles, the net must be supported at the points n, n, to a height of 3 feet 6 inches (1.07 m) by means of two singles sticks, which shall be not more than 3 inches (7.5 cm) square or 3 inches (7.5 cm) in diameter. The centres of the singles sticks shall be 3 feet (.914 m) outside the singles Court on each side.

To assist in the placing of these singles sticks it is desirable that the points n, n, should each be shown with a white dot when the Court is marked.

Note: As a guide for international competitions, the recommended minimum distance between the baselines and the backstops should be 21 feet (6.40 m) and between the sidelines and the sidestops the recommended minimum distance should be 12 feet (3.66 m).

As a guide for recreational and Club play, the recommended minimum distance between the baselines and the backstops should be 18 feet (5.48 m) and between the sidelines and the sidestops the recommended minimum distance should be 10 feet (3.05 m).

As a guide, the recommended minimum height to the ceiling should be 30 feet (9.14 m).

USTA Comment L. 1: Tennis Court Layout

All courts should be laid out for singles and doubles play. The same lines—except for the sideline extensions for doubles play—are required for each.

Courts in the northern two-thirds of the United States should generally be laid out with the long axis north and south; it is advantageous, however, to orient the courts in the southern one-third of the country 15°-25° west of true (not magnetic) north in order to minimize the adverse effects of the afternoon winter sun.

Figure 1 indicates the exact dimensions of the lines as well as recommended side and back spacing. Note that the dimensions shown in the diagram are measurements to the outside edge of the lines. For regulation play, the space behind the baseline (between the baseline and fence) should not be less than 21 feet, for an overall dimension of 60' x 120'. For stadium courts, this perimeter spacing should be increased to allow space for line umpires without impeding the players. Net posts should be located with their centers three feet outside the doubles sideline.

Most courts are laid out with lines two inches (2") wide. Lines may be one inch (1") to two inches (2") wide excepting the center service line which must be two inches (2") wide and the baselines which may be up to four inches (4") wide.

For more detailed information on the subject, *Tennis Courts*, a book containing United States Tennis Association and U.S. Tennis Court and Track Builders Association recommendations for the construction, maintenance, and equipment needs of a tennis court installation, can be obtained by contacting the USTA Bookstore, AT 888-832-8291.

If you have a rules problem, send full details, enclosing a stamped self-addressed envelope, to USTA Tennis Rules Committee, c/o Officials Department, 70 West Red Oak Lane, White Plains, NY 10604-3602.
